Press Release

Maag Pump Systems Textron AG, the worldwide leading manufacturer of gear pumps, has won the Chinese market leader for flat die heads, the Jing Cheng Times Group, as OEM in China. The result of the co-operation is a gear pump developed specially for JC Times. Customers can examine it for the first time at the Chinaplas in Guangzhou. Characterised by a new specific design, the “Maag-JC Pump” is in combination with the flat die heads from JC Times especially suitable for the extrusion of solid sheet- and film extrusion. All the quality characteristics of Maag’s gear pumps are of course integrated.

This is not the first activity of Maag Pump Systems in China; a subsidiary in Shanghai, has successfully marketed for three years the complete product range of the Maag Group.
