

Pulverizing System 85XLP

Compact milling and all around pulverizer

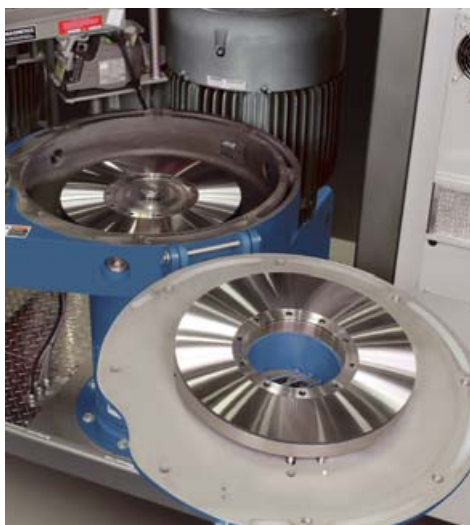

The Reduction Engineering pulverizer 85XLP, with its compact design, is the perfect fit for the medium throughput range or the ideal solution for In-House production. This unit, with its integrated PLC controls, assures the highest quality performance with minimal man-machine interface. As with all Reduction Engineering pulverizers, this unit incorporates our state-of-the-art technology that facilitates quick clean downs and change-over times.

Advantages

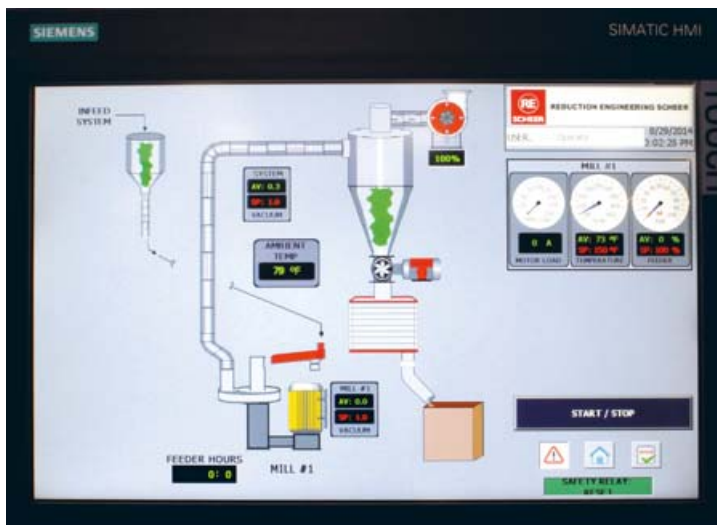

- Energy efficient
- Shim-less gapping of discs
- Small footprint
- Remote access to machine interface
- Best control of particle size distribution

Pulverizing System 85XLP

Compact milling and all around pulverizer

Mill Chamber with Disposable Discs

Touch Screen Controls

Technical data:		85XLP
Material:		LDPE, HDPE, PVC, ABS, ... ¹⁾
Feed Size:	mm	≤ .10,0
Final Fineness:	µm	500
Output:	kg/h	270 - 450
Discs:	No./Diameter (mm)	2 / 432
Main Drive:	kW	55
Screens:	Number / Area (m ²)	4 / 2,0
	Mesh	35
Controls:	Siemens	PLC with Touch Screen
Dimensions:	L x W x H (mm)	2,400 x 1,562 x 4,486
