

Lab Pulverizer REX tech

Xtremely versatile and efficient

The REX tech, our lab scale pulverizer, makes sampling and trials for R&D fast and simple. The unit is manufactured for both ambient and cryogenic operation with use of the proper attachments. This versatile pulverizer can service a wide variety of markets where top quality sample powders are required. Almost anything can be trialed on this unit – from engineered resins, rubber, adhesives, pharmaceuticals as well as food grades.

Advantages

- Elimination of outside services for trials
- Smallest batch sizes for cost effective test runs
- Ambient & Cryogenic ready
- Versatile hopper design for inlet/outlet
- Small footprint, equipped with casters for easy portability
