

Pulverizing System REX duo

Xtra efficiency with highest output rates

The REX duo Series is serving end users with demands for quantities of high quality powder and production rates. Efficient utilization of its entire available power makes the REX duo Series the most economical pulverizer with relation to kilograms produced over power consumed. A small footprint and high output make this the right choice for the serious pulverizer or toll processor. The duo^{PLUS} version outperforms all other machines of its size in the market.

Advantages

- High energy efficiency
- Small footprint
- Remote access to machine interface
- Various Disc configurations available
- Best control of particle size distribution

Pulverizing System REX duo

Xtra efficiency with highest output rates

Classification System

Dual Milling Chambers

Technical data:		REX duo	REX duo ^{PLUS}
Material:		LDPE, HDPE, ABS, ... ¹⁾	
Feed Size:	mm	≤ 10.0	
Final Fineness:	µm	500	
Output:	kg/h	500 - 700	900 - 1,360
Discs:	No./Diameter (mm)	4 / 432	
Main Drive:	kW	55 / 22	55 / 55
Screens:	Number / Area (m ²)	8 / 4.0	10 / 5.6
	Mesh (US)	35	
Controls:	Siemens	PLC with Touch Screen	
Dimensions:	L x W x H (mm)	2,337 x 1,524 x 5,683	2,337 x 1,524 x 6,233
